PROFESSIONAL SUMMARY

Computer Science Engineering graduate specializing in Python, Backend Development, and Machine Learning fundamentals. Hands-on experience with Python, Django, Flask, MySQL, SQL, REST API concepts, CRUD operations, JWT Authentication, and database integration. Strong foundation in OOP, debugging, problem-solving, NLP, and Generative AI, with practical experience developing Django-based web applications.

TECHNICAL SKILLS

Programming Languages: Python, SQL, HTML, CSS

Frameworks: Django, Bootstrap

Backend Development: CRUD Operations, Django MVT, JWT Authentication, Backend Application Development

Database: MySQL, Database Management, SQL

Machine Learning: Machine Learning Fundamentals, Text Classification, NLP

Generative AI: Generative AI Fundamentals

Programming Concepts: Object-Oriented Programming (OOP), Debugging, Problem Solving

Development Tools: Git, GitHub, Visual Studio Code, PyCharm

INTERNSHIP EXPERIENCE

Python Full Stack Developer Intern | UNIQ Technologies

- Developed web applications using Python, Django, HTML, CSS, and Bootstrap.
- Implemented CRUD operations and integrated MySQL for data storage and retrieval.
- Worked with JWT Authentication for secure login and authorization.
- Applied OOP, debugging, and backend development concepts.
- Used Git, GitHub, VS Code, and PyCharm for development and version control.
- Gained practical exposure to NLP and Generative AI concepts.

PROJECTS

Hostel Management System | Python, Django, MySQL, HTML, CSS, Bootstrap

- Developed a full-stack hostel management application using Python and Django.
- Implemented room, bed, resident, rent, food, payment, and expense management.
- Managed A/C and Non-A/C rooms with 2, 3, and 4-sharing options.
- Implemented bed availability tracking, resident details, food preferences, and rent management.
- Integrated MySQL with Django and implemented CRUD operations using Django MVT architecture.

Human Emotion Classification | Python, NLP, Machine Learning

- Developed a text classification model for human emotion detection.
- Used the DAIR-AI Emotion dataset for emotion classification.
- Applied text preprocessing and machine learning classification techniques.
- Evaluated model performance using classification metrics.

EDUCATION

B.E. – Computer Science and Engineering

PSN College of Engineering and Technology, Tirunelveli

2022–2026 | CGPA: 7.7/10

ACHIEVEMENTS

- Managed and maintained SSMR Tamil YouTube Channel with consistent content creation.
- Received Best Social Media Influencer Award.
- Recognized in Book of Records for digital contribution.

Languages: Tamil, English
